RE: **ACCRA PAC 039-17371-00434**
TO: Interested Parties / Applicant
FROM: Paul Dubenetzky
Chief, Permits Branch
Office of Air Quality

Notice of Decision - Approval

Please be advised that on behalf of the Commissioner of the Department of Environmental Management, I have issued a decision regarding the enclosed matter. Pursuant to 326 IAC 2, this approval was effective immediately upon submittal of the application.

If you wish to challenge this decision, IC 4-21.5-3-7 requires that you file a petition for administrative review. This petition may include a request for stay of effectiveness and must be submitted to the Office Environmental Adjudication, ISTA Building, 150 W. Market Street, Suite 618, Indianapolis, IN 46204, **within eighteen (18) calendar days from the mailing of this notice**. The filing of a petition for administrative review is complete on the earliest of the following dates that apply to the filing:

- (1) the date the document is delivered to the Office of Environmental Adjudication (OEA);
- (2) the date of the postmark on the envelope containing the document, if the document is mailed to OEA by U.S. mail; or
- (3) The date on which the document is deposited with a private carrier, as shown by receipt issued by the carrier, if the document is sent to the OEA by private carrier.

The petition must include facts demonstrating that you are either the applicant, a person aggrieved or adversely affected by the decision or otherwise entitled to review by law. Please identify the permit, decision, or other order for which you seek review by permit number, name of the applicant, location, date of this notice and all of the following:

- (1) the name and address of the person making the request;
- (2) the interest of the person making the request;
- (3) identification of any persons represented by the person making the request;
- (4) the reasons, with particularity, for the request;
- (5) the issues, with particularity, proposed for considerations at any hearing; and
- (6) identification of the terms and conditions which, in the judgment of the person making the request, would be appropriate in the case in question to satisfy the requirements of the law governing documents of the type issued by the Commissioner.

If you have technical questions regarding the enclosed documents, please contact the Office of Air Quality, Permits Branch at (317) 233-0178. Callers from within Indiana may call toll-free at 1-800-451-6027, ext. 3-0178.

Re: 039-17371-00434
Second Administrative Amendment to
Part 70 T 039-6875-00434

Dear Mr. Pickering:

Accra Pac Group, Inc., (APG, Inc.) was issued a permit on February 9, 2001 for a liquid and aerosol can filling operation . A letter requesting a change in mailing address and telephone area code was received March 21, 2003. Pursuant to the provisions of 326 IAC 2-7-11(a)(2) the permit is hereby administratively amended as follows:

A.1 General Information

The Permittee owns and operates a liquid and aerosol can filling operation, which has a capability to fill an approximately 420,000,000 cans per year, and handle approximately 674,915,000 pounds per year of VOC-containing liquids.

Responsible Official:	Jim Pickering	
Source Address:	2730 Middlebury Street, Elkhart, Indiana 46515 and Contiguous	Property
Mailing Address:	P. O. Box 878 2988 , Elkhart, Indiana 46515	
SIC Code:	7389	
County Location:	Elkhart	
County Status:	Attainment for all criteria pollutants	
Source Status:	Part 70 Permit Program	
	Major Source, under PSD Rules	

Due to a name change since the permit was issued, all references to the Office of Air Management (OAM) were changed to reflect the new name of the Office of Air Quality (OAQ). A recent change in area codes for Northern Indiana resulted in the change of area code from 219 to 574. The remainder of the phone number is unchanged. The P.O. Box for the source mailing address was changed from P.O. Box 878 to P.O. Box 2988.

All other conditions of the permit shall remain unchanged and in effect. Please attach a copy of this amendment to the front of the original permit.

Accra Pac Group, Inc.

Issued by: Janet G. McCabe, Assistant Commissioner Office of Air Quality	Issuance Date: February 9, 2001 Expiration Date: February 9, 2006

First Administrative Amendment 039-14131-00434, issued March 29, 2001

Second Administrative Amendment: 039-17371-00434	Page Affected: 5
Issued by: Original signed by Paul Dubenetzky, Branch Chief Office of Air Quality	Issuance Date: April 17, 2003

SECTION A SOURCE SUMMARY

This approval is based on information requested by the Indiana Department of Environmental Management (IDEM), Office of Air Quality (OAQ). The information describing the emission units contained in conditions A.1 through A.3 is descriptive information and does not constitute enforceable conditions. However, the Permittee should be aware that a physical change or a change in the method of operation that may render this descriptive information obsolete or inaccurate may trigger requirements for the Permittee to obtain additional permits or seek modification of this approval pursuant to 326 IAC 2, or change other applicable requirements presented in the permit application.

A.1 General Information

The Permittee owns and operates a liquid and aerosol can filling operation, which has a capability to fill an approximately 420,000,000 cans per year, and handle approximately 674,915,000 pounds per year of VOC-containing liquids.

	Major Source, under PSD Rules	

A.2 Emission Units and Pollution Control Equipment Summary

This application consists of a consolidation of multiple permits into a single source-wide permit and involves a relaxation of the previously established line by line production limitations in the construction permits issued for the source's two (2) plants Accra Pac and Health Care Industries. This relaxation will enable the source to use the full capacity of its production lines. The stationary source consists of the following emission units and pollution control devices:

- (a) VOC-Containing Propellant Handling Operations including bulk and smaller container unloading, storage, transfer and filling into aerosol product containers. The source has seven (7) aerosol product production lines with a total capacity of 420 million aerosol cans per year.
- (b) VOC-Containing Liquid Handling Operations including bulk and smaller container unloading, storage, transfer, mixing, and filling into liquid and aerosol product containers. The source has nine (9) liquid product filling lines in addition to the seven (7) aerosol product filling lines and all sixteen (16) lines involve VOC-containing liquid handling. The source can handle a maximum of 674,915,000 pounds per year of VOC-containing liquids.
- (c) Scrap Can Processing Operations including automatic and manual devices used to recover contents and allow recycling of scrap metal from aerosol cans from the production operations that are unusable. The manual devices utilize add-on canisters of activated carbon for VOC emission control. The capacity of the scrap can processing operations is limited by permit to less than 4,545,000 scrap cans processed per year (equivalent to less than 25 tons per year of VOC emissions).
